

How to vote Green Independent

Vote 1 to 7 for the Green
Independent candidates.

It is important that you vote for all
seven Green Independent
candidates.

(For a valid vote you must number at least
seven boxes).

Tasmania can't wait.

The
Green
Independents

Green is working.

18 years ago establishing a Tasmanian Development Authority was a Green idea....Years later a Liberal government agreed.

15 years ago energy conservation not dams was a Green idea... Millions of wasted dollars later the old parties agreed.

10 years ago promoting Tasmania's unique natural environment to boost jobs and tourism was a Green idea. Today the tourists are coming to visit the Franklin river and World Heritage Areas. Their spending is creating more and more jobs for Tasmanians.

4 years ago Local Employment Initiatives were a Green Idea... Now they are creating new jobs for Tasmanians. Real jobs. Jobs with a future.

Greens Ideas have led to growing demand for Tasmania's clean primary produce and fine foods, doubling employment in the quality furniture industry, control of HEC debt, saving of threatened schools... the list goes on.

But years have been wasted, millions of dollars have been wasted, jobs opportunities lost, while the old parties, both Liberal and Labor, did little but grasp for short-term political gain.

Well, it's over. The old policies, the old parties, haven't worked; and now is the time to change them.

We see it in the polls, we hear it in the streets. Tasmanians wanting and demanding change. And they can't wait.

Green will work.

Tasmanian workers can't wait any longer for an economic strategy that will give them long-term jobs.

The Green Independents have developed a 10-point, 10-year economic strategy and jobs blueprint. It's ready to implement now.

Tasmanian children can't wait any longer for the education they must have if they are to hope for a worthwhile future.

Tasmanian women can't wait for fair and equal representation...

Tasmania's health and social welfare systems can't wait.

Tasmania's environment can't wait...

Five Green Independents, alone, can't end the wasted years.

Together, Tasmanians can.

But we must start now.

Tasmania can't wait.
